# What Makes ? Our Shirts The Best ?

permanent • soft • comfortable • chafe resistant • durable

-  **Fabric.**  
We use a **Poly-MICROFIBER** blend that creates a much **softer**, more comfortable feel while reducing chafing than other regular 100% poly-fabrics.
-  **Permanent Moisture Management Properties.**  
Our moisture management is sewn in, **permanent**, lasting the **lifetime** of the shirt, compared to being sprayed on and lasting only a few washings.
-  **Style.**  
Our curved raglan with longer racing back makes our shirt move in tandem with the runner creating a **comfortable, smooth, chafe resistant experience**.
-  **Stitching & Retail Look.**  
We don't pull strings when it comes to sewing! We use a strong top and cover stitch that maintains **durability** & gives our garments that **retail look**.
-  **Experience.**  
**We must be doing something right!**  
Leslie Jordan was Inducted into the Running USA Hall of Champions in February of 2006.
-  **Pricing.**  
We offer the most **competitive pricing** on quality performance apparel in the marketplace.

## What are people saying about Leslie Jordan Shirts ?

These comments are unsolicited from  
the running community.

*"The shirt you provided me is my new favorite shirt. I love the cut, the fit, the fabric, and the style (and the length). You've got it right!"*

— **Veteran runner since 1955**

*"I have worn tech shirts for 7 years I have worn all brands. Your new style #9341 is the best I have worn in material and styling – Great job!"*

— **Founder and Race Director of a major event for 20 years**

*"The shirts came today, and they are BEAUTIFUL! I'll show them to my colleague in the morning – I'm sure he'll freak out."*

— **Experienced runner turned race director**
